TALK TO US TODAY**

CORPORATE IMMIGRATION SERVICE

At Wellers Law Group we offer support for businesses in navigating the UK immigration system to employ all types of workers from overseas.

Whether you are looking to secure the services of EEA employees already living in the UK or bring in specific skills from further afield we can help you.

UK immigration laws and procedures are constantly changing. The latest set of changes, post-Brexit, are affecting many businesses, particularly in the healthcare, hospitality and IT sectors. Understanding the Points Based System, the rules for Skilled Workers, applications for sponsorship licences is not straightforward so it makes sense to have an expert on hand to provide guidance from start to finish.

We have extensive experience in dealing with corporate and also private immigration applications, covering all types of Visas, options for regularising and extending employees' stays in the UK and are able to minimise all of the uncertainty and frustration often associated with the application/appeal process. Furthermore, we are experts on finding solutions for cases that lay outside the rules.
